OBJECTIVE

Software Engineer with 1+ years of experience in designing and developing full-stack web applications using the MERN stack, Next.js, and Golang. Proven ability to build scalable, performant, and user-centric solutions with a focus on clean architecture and efficient backend services. Eager to contribute to a growth-driven team and expand technical expertise while delivering high-impact products.

SKILLS

Programming Languages	JavaScript (ES6+), TypeScript, Golang, HTML5, CSS3
Frameworks & Libraries	React.js, Next.js, Express.js, Node.js, Gin
Databases & ORMs/ODMs	MongoDB, MySQL, PostgreSQL, Mongoose, TypeORM, GORM
Tools & Caching	Git, GitHub, Postman, REST APIs, Redis
Soft Skills	Problem Solving, Team Collaboration, Communication Skills

EXPERIENCE

Software Developer Avirait Technologies Pvt. Ltd.	Jan 2025 - Present <i>Remote work, Pune</i>
---	--

- **Gym Management Platform** Built using Next.js, Golang, and PostgreSQL with features like Razorpay payment integration, Redis caching, and Cloudinary for image storage. Implemented RabbitMQ for WhatsApp communication, Msg91 for OTP delivery and ShadCN UI for UI components.
- **Wedding Service Marketplace** Multi-role system (Admin, Service Partner, Client) developed with Next.js, Node.js, and MongoDB. Enabled package selection and booking flow with Razorpay integration.
- **Company Website** Designed and developed a dynamic, animated company website using Next.js, Framer Motion, ShadCN UI and Nodemailer integration for contact form email delivery..

Junior Developer PurpleZone Pvt. Ltd.	Jun 2024 - Jan 2025 <i>Pune</i>
---	------------------------------------

- **Task Management Portal** Developed with React.js, Node.js, and MongoDB. Integrated Google APIs for calendar and email automation, and used Firebase for real-time push notifications.
- **Client WordPress Sites** Designed and customized responsive websites using Elementor and WordPress.

PROJECTS

Youtube Clone Built a fully responsive YouTube clone using React.js, Redux Toolkit, and React Router DOM. Fetched data from the YouTube Rapid API and used React Player for video playback. Hosted on Netlify to demonstrate API integration, dynamic routing, and state management. [\(Link\)](#)

Programiz Clone An online multi-language code compiler using the MERN stack and Judge0 API (supports PHP, C, C++, Java, Go, etc.). Implemented CodeMirror for code editor features and used SCSS for styling. [\(Link\)](#)

Ecopass - Smart Ticketing System (*Final Year Project*) Designed a smart transit ticketing system where passengers scan a card to deduct fare based on route pricing. Implemented role-based access for Admin, Conductor, and Passenger using Next.js, Node.js, and MongoDB. [\(Link\)](#)

EDUCATION

Bachelor of Computer Science ZEAL collage of engineering & research, Pune (CGPA 8.00)	2020 - 2024
