Jayant Sawarkar

Software Engineer - Full Stack Web Developer

Hello, this is Jayant. I am a computer science undergraduate student at SPPU in Pune, India. I am a full-stack web developer looking for a chance to use my abilities. To adapt to my career, I am excited about learning new technology. As a web developer, I am more interested in learning how to create websites that are responsive, engaging, and potentially the best in the industry integrating front-end and back-end technologies in order to give users a memorable experience.

Personal Projects

MobiMart | E-Commerce web App   https://proud-moth-jewelry.cyclic.app/
- A MERN full-stack project, this e-commerce web application uses authentication, sign-in, and sign-up features using backend express js.
- Most focus is on understanding functionality, so Bootstrap is used for front-end design with React JS.
- Database management in this case is performed using the MongoDB database.
- Payments integrate with the Braintree Payment Platform. This project is hosted on Cyclic.

Movix | Movies and TV-shows overview   https://movix-by-js.netlify.app/
- Movix project, which is based on Vite - React JS and manages state using the Redux ToolKit.
- Designing is done with SCSS/SASS
- TMDB API has been used to get comprehensive information about films and TV shows

Youtube | Clone   https://youtube-by-js.netlify.app/
- I created this YouTube clone to show my proficiency with React JS and reaching API endpoints.
- The YouTube Rapid API was used to create this application & state is managed with Redux Toolkit.
- Styled-Components is used for front-end designing.

News App | Basic news app   https://news-app-by-js.netlify.app/
- This project is created using React JS front-end is deployed on Netlify.
- Issue : cors error from API while deploying.
- Solved : created a back-end proxy server using Express JS for fetching API & deployed on Render.

Education

2020-08 – present	**Bachelor of Engineering : Computer Science** ZCOER , SPPU Pune – Narhe , Pune , India.
2019-02 – 2020-02	**Higher Secondary School** C.P. and Berar Junior Collage – Ravinagar , Nagpur , India.

Skills

HTML5	CSS3
JavaScript	MongoDB
ReactJS	ExpressJS
SASS	TailWind
Redux	GitHub
Styled-Components
